This chart highlights the company's positioning relative to the industry average for each Key Issue that contributed to its ESG Rating as of March 05, 2021.

Last ESG Rating action

Rating action date: August 31, 2020

Taiwan Cement has been upgraded to 'BB' from 'B'.

In 2019, TCC formally adopted TCFD recommendations and set an SBTi-verified GHG emissions target of 10.8% reduction by 2025 vs. 2016 levels. For FY 2019, TCC reduced its GHG emissions by 34% against a 2013 baseline, meeting its 2030 target ahead of schedule. In addition to equipment upgrades and renewable energy sourcing, its emissions management is supported by life cycle modeling, R&D and programs in carbon capture, fuel-efficient shipping vessels, and product carbon footprint surveys.

- TCC has also refreshed its reduction targets for NOx (-50%), SOx (-30%), and particulate matter (-30%) come 2025 over 2016 figures. With its erstwhile target of 20% air emissions reduction by 2030 vs. 2013 levels, it recorded significant decreases for NOx (-13%), SOx (-29%), and particulate matter (-25%) as of 2019. Its waste strategy, certified to BS 8001 circular economy standard, is driven by co-processing of industrial by-products as alternative materials and fuels for manufacturing cement.
- In 2019, TCC broadened its labor management efforts to include engagement surveys and stock option plans. Further, with additional safety risks posed by COVID-19, it established a pandemic response center and enacted protocols, including shift staggering and deep-cleaning, across its sites.
- Even as a family firm, TCC has an independent-majority board, and neither has a controlling shareholder nor a special capital structure. However, potential board entrenchment and limited executive pay disclosures place it behind leading global peers.

Analyst insights

Brother-in-law holds onto chairmanship until Koo's successors are named

October 19, 2020

Sophia Cheng

In 2017, Leslie Koo, the third-generation Taiwanese cement scion, passed away from injuries sustained from a fall at age of 62. Following his sudden death, his brother-in-law Nelson Chang was appointed to be the acting chairman of Taiwan Cement Corp (TCC), the island's top cement maker founded by Koo's family. The family controls Taiwan Cement Group and its 17 affiliate companies across various sectors, including construction, biotech and chemical products. TCC is the group's flagship company, in which the family holds 9.8% voting rights.

The family has delegated Leslie Koo's responsibilities to other family members but a succession plan is still not apparent. Chang officially became the chairman and CEO of TCC, while Koo's nephew Koo Kung-yi, from the family's fourth generation, became the deputy chairman after the company's annual general meeting in June 2018. Koo Kung-yi was also appointed as chairman of two other affiliated companies in the TCC Group, China Synthetic Rubber Corp. and Taiwan Prosperity Chemical Corp. While it appears that some of the family's fourth generation has been given key roles in the companies, Koo's family has not announced a succession plan for TCC yet. (Leslie Koo's son Koo Gung-kai and daughter Koo Hsuan-hui, both in their 30s, do not hold any positions at TCC.) Besides, TCC has an entrenched board, based on MSCI's definition, with 26% of the board directors' tenure over 15 years and six out of 19 board members over age 70. TCC has the most directors older than 70 among the MSCI ACWI Taiwan Index constituents. In January 2020, the younger-generation Koo Kung-yi resigned as deputy chairman of TCC, citing too many work commitments. This led to speculation that this potential succession candidate would rather focus on the other two TCC Group companies where he serves. As a result of his resignation, his uncle, Chang, who has served on TCC's board for more than 26 years, is expected to continue to lead the board for the foreseeable future.

*Companies last rated prior to November 2020 will continue to show legacy Governance Key Issues (Corruption & Instability, Financial System Instability, Business Ethics & Fraud, and Anticompetitive Practices) in the ESG Rating drill down. These key issues will be removed from the drill down and replaced with Corporate Behavior and Corporate Governance Deductions at the next re-rating.

**Beginning November 2020, the Environmental Pillar Score and Social Pillar Score are calculated based on the weighted average of underlying Key Issue Scores, while the Governance Pillar Score is calculated based on 10 minus the sum of Corporate Governance and Corporate Behavior deductions. In the ESG Rating drill-down, deductions are scaled to indicate impact on the overall Governance Pillar Score. In subsequent sections of the report, deductions are scaled to show impact on the Corporate Behavior and Corporate Governance Theme Scores.

BOARD

Certain aspects of the Taiwan Cement board may not be well aligned with sustainable shareholder interests. We have flagged this board for potential concerns regarding the presence of certain related party transactions, possible board entrenchment, some non-executives may have too many other public board commitments and executives who serve on too many other boards of public companies.

RELATED PARTY TRANSACTIONS

The risk to minority shareholders arising from related party transactions is a function of the nature of the related party, the relative size of the transaction and the pricing of the transaction. The board, and in particular the independent directors or audit committee, should play a key role in the protection of minority shareholders, monitoring and managing potential conflicts of interest of management, board members and shareholders.

Reported Transactions

RPT with affiliated companies, major investors, merged company with significant influence includes operating income, purchase

For the two most recently reported fiscal years, these value of these transactions can be summarised as follows :

Fiscal Year	Related Party Types	Aggregate Transaction Value		Type
		Value (CUR)	% of Total	
Dec 31, 2019	Other	2,574,739 TWD	0.002% of Total Revenue	Recurring income from related party
		4,797,365 TWD	0.005% of Expenses	Recurring purchases from related party
Dec 31, 2018	Other	2,288,062 TWD	0.002% of Total Revenue	Recurring income from related party
		4,180,669 TWD	0.004% of Expenses	Recurring purchases from related party
		25,000 TWD	0.000% of Total Assets	Purchase of assets from related party

Sources : 2019 AR p.70, 2018 AR p.164

BOARD EFFECTIVENESS

Director overboarding appears to be a serious problem for this board, with both executive and non-executive directors sitting on too many boards. This is of particular concern regarding the company's audit committee, whose members may be unable to provide effective oversight as a result. MSCI ESG Research considers a non-executive director to be overboarded when they sit on three or more additional boards (i.e. four total boards, including the rated company) in MSCI ESG Research's corporate governance research universe. For CEOs and other executive directors the limit is two additional boards (i.e. three boards including the rated company).

Nomination Committee

No details on this committee has been identified

BOARD SKILLS & DIVERSITY

MSCI ESG Research has flagged the board as potentially entrenched due to a high number of long-serving directors. Of particular importance during periods of extended underperformance, the impact of an entrenched board can be particularly damaging to sustainable shareholder interests and we do see the potential for such entrenchment at this firm due to a significant number of long-serving directors. These concerns are aggravated due to additional factors, e.g. all board members do not stand for annual re-elections and the lack of an independent chairman, which together with the high number of long-tenured directors raises concerns about whether the board is able to provide an effective counterbalance to management. We note that 33% in Taiwan have been flagged for having an entrenched board.

We have flagged the Taiwan Cement board for gender diversity concerns. Several recent studies have shown that companies with too few female directors tend to be less effective and even underperform those whose boards are more diverse.

A board with one or more active CEOs and overboarded directors may not be able to provide effective oversight of management. External distractions can limit the time and attention required to fulfill their fiduciary duties.

AUDIT OVERSIGHT

Audit Committee - Number Of Meetings: 9

The Taiwan Cement board of directors includes a fully independent audit committee and at least one member of that committee meets our standards for financial expertise.

PAY FIGURES

DISCLOSURE

Disclosure should include, at minimum, pay for each executive member of the Board of Directors (or Management Board for companies with a two-tier board structure) on an individualized basis or in cases where there are no executive members, the CEO. The individualized disclosure should include separate information on the amount of each of the following (where such a component is provided): salary, short-term Incentives, long-term Incentives, pensions, benefits, and any one-off payments (such as recruitment or retention awards).

Common shares	1.0	5,665,619,204

OWNERSHIP STRUCTURE

OWNERSHIP CATEGORIES

- Principal Shareholder
- Family Firm

NOTABLE SHAREHOLDERS

Koo Family and Chang Family -9.8% (1.78% through Heng Qiang Investment Co., Ltd.; 4.22% through Chinatrust Investment Co., Ltd. Chia Hsin Cement Corporation-3.80%, Chia Hsin International -1.85)	11.7%
5%+ shareholders - Aggregate Voting Power	11.7%
Insider Voting Power	11.7%

We note that despite being classified as a family firm/founder firm, the company does not have a controlling shareholder. The company does not have a special capital structure, thus one vote right is afforded per common share. This principle of 'one share one vote' helps align economic and voting power and ensures that no class of shareholders has more voting power than economic exposure.

CROSS SHAREHOLDINGS

The company has been flagged for being involved in a series of cross-shareholdings with other (related or unrelated) companies. Cross shareholdings can lead to double counting, whereby the equity of each company is counted twice when determining value. Cross-shareholdings are rare in the Taiwan markets, with only 9% of the companies being flagged for this.

Chinatrust Investment Co., Ltd. holds 4.22% of Taiwan Cement Corp., Taiwan Cement Corp holds 9.36% of Chinatrust Investment Co., Ltd.

Chia Hsin Cement Corp. holds 3.8% of Taiwan Cement Corp, Taiwan Cement Corp holds 3.54% of Chia Hsin Cement Corp.

CROSS-SHAREHOLDINGS

FAMILY FIRM

Koo family collectively holds 11.65% of company shares through direct and indirect holdings

TAKEOVER PROVISIONS

Fair Price Provision	Mandatory Bid Provision	Mandatory Bid Ownership Threshold
Yes	Yes	33.3

% of Votes to Approve a Merger

67%

GOVERNING DOCUMENTS

MAJORITY REQUIREMENTS

Default percentage of votes required to amend a provision	Bylaws	Charter
		67%

The following matters shall be passed by a special resolution at the general meeting of shareholders. Amendment of the company's articles of association

A special resolution made by the shareholders' general meeting shall be passed by more than 2/3 of the voting rights held by the shareholders (including shareholders' proxies) present at the shareholders' general meeting.

SHAREHOLDER RIGHTS

Investors should be aware of governance risks in relation to shareholder rights and management-controlled takeover defence mechanisms currently applicable in the governing documents or applicable regulation at Taiwan Cement including:

- business combination provisions that fail to include protections of shareholder interests
- Limits on the right of shareholders to take action by written consent

SHAREHOLDER MEETINGS & RESOLUTIONS

	Call Special Meeting	Requisition a Resolution at AGM	Act by Written Consent
Percentage of shares required	3%		100%

RESTRICTIONS ON LEGAL ACTION BY SHAREHOLDERS

No exclusive forum provision has been identified.

SAY ON PAY

Despite a significant global trend towards providing shareholders with the ability to review and approve executive pay practices, the company does not operate in a market which requires regular 'say on pay' votes nor has it extended this right to shareholders.

DIRECTOR ELECTIONS

BOARD RE-ELECTION PROVISIONS

All board members are not subject to annual re-election. While often touted as a means of ensuring board continuity, a classified board structure severely limits the ability of shareholders to hold directors accountable and serves as a takeover defense.

Board Re-election Provisions	
Board Re-election Frequency (Years)	3
% of Board subject to re-election	100%

DIRECTOR ELECTION STANDARD

Director Election Rules	
Vote Standard	Plurality
Immediate Binding Resignation	Yes

In the election of directors of this Company, candidates who acquire more votes should win the seats of directors. If two or more persons acquire the same number of votes and the number of such persons exceeds the specified seats available, such persons acquiring the same votes shall draw lots to decide who should win the seats available, and the Chairman shall draw lots on behalf of the candidate who is not present.

ACCOUNTING

Based on the company's disclosures and other public information, accounting and financial reporting practices at Taiwan Cement appear to be generally appropriate and effective relative to global peers. We have flagged this company for potential concerns regarding revenue recognition ratios (based on our quantitative assessment).

China: CNY 300,000 SAMR penalty for the alleged failure to declare joint venture with OYAK

In June 2020, the State Administration of Market Regulation (SAMR) of China imposed a penalty of CNY 300,000 (approximately USD 44,276) on Taiwan Cement Corp. for alleged failure to declare concentration of business operators while registering a joint venture in 2018 with a Turkish company Ordu Yardimlasma Kurumu (OYAK). According to the regulator, both Taiwan Cement and OYAK reached the declaration standard based on their turnover in 2017 but failed to file a declaration before completing the joint venture registration.

TAIWAN

CURRENCY: TAIWAN NEW DOLLAR (TWD)

In Taiwanese companies, all directors are elected simultaneously for terms no longer than three years. They may have a one-tier board with an audit committee or a two-board arrangement with a board of directors and board of supervisors (both elected by shareholders). In the latter case, which is more common, the board of supervisors supervises the board of directors and management and the audit function and must have at least one member not related to other supervisors or directors. The one share one vote rule applies, as well as cumulative voting. Directors can be removed by a two-thirds shareholder vote.

Newly listed companies must have at least two independent directors (one of whom is a financial expert) and one independent supervisor. Taiwanese companies are encouraged to follow the Corporate Governance Best-Practice Principles for TWSE/GTSM Listed Companies (the Principles), although there is plenty of divergence from them. The Principles require that no more than half of directors be related and there be at least two and not less than 20% independent directors.

The supervisors are responsible for overseeing internal controls. If a company has an audit committee, the Principles require it to be wholly independent with at least one financial expert and approve the internal controls system. IFRS now apply in Taiwan. Where a conflict of interest arises, it must be approved by the board and the audit committee, if it exists. Any dissent by independent directors must be recorded in the minutes.

Shareholders representing 1% of shares can propose general meeting resolutions and 3% shareholders can requisition an extraordinary general meeting. Amendments to the articles of association and mergers require approval by a two-thirds vote of shareholders. A mandatory takeover offer is required for any acquisition of at least 20% of shares within a 50 day period. All shareholders must be treated equally in the offer. Poison pills and other takeover defenses are available, although rarely used. Upon receipt of a tender offer, a company must establish a review committee composed of at least three independent directors. The review committee reviews and report on the fairness and reasonableness of the transaction. There is no statutory squeeze out procedure in Taiwan.

Listed companies must have a remuneration committee. If there are independent directors on the board, at least one independent director must be on the committee and chair it. Shareholders approve remuneration for directors and supervisors, but not executives. Shareholders must approve equity-based incentives. If the company has an option plan for executives, the options cannot have a lower exercise price than the market price unless approved by a two-thirds majority shareholder vote.

GLOSSARY

MSCI ESG RATINGS AND SCORES

FINAL ESG RATING

- Letter ratings are relative within each MSCI ESG Ratings industry. Each Final Industry-Adjusted Company Score is converted to an equivalent rating on the AAA-CCC scale.

ESG PILLARS

- the **Environment Score** represents the weighted average of all Key Issues that fall under the Environment Pillar
- the **Social Score** represents the weighted average of all Key Issues that fall under the Social Pillar
- the **Governance Score** represents the sum of score deductions derived from Key Metrics included in Corporate Governance (including Board, Pay, Ownership & Control, and Accounting) and Corporate Behavior (including Business Ethics and Tax Transparency)
- the **Environment Weight** represents the sum of the weights of all Key Issues that fall under the Environment Pillar
- the **Social Weight** represents the sum of the weights of all Key Issues that fall under the Social Pillar
- the **Governance Weight** represents the sum of the weights of Corporate Governance and Corporate Behavior, with a minimum weight set at 33% for all rated issuers

KEY ISSUES

For each industry and Company-Specific Key Issue that contributes to the final rating:

- Weight** contribution to the final rating
- Exposure Score** (available for companies published since June 2011; excluding Raw Material Sourcing – Environmental)
- Management Score** (available for companies published since June 2011; excluding Raw Material Sourcing – Environmental)
- Overall **Key Issue Score**

WEIGHTED-AVERAGE KEY ISSUE SCORE VS. INDUSTRY RELATIVE SCORE

- the **Weighted-Average Key Issue Score** is dynamic, reflecting changes in any underlying scores as of the Last Update date, while the **Industry Relative Score** is more static and corresponds to the Rating Date. Issues that we determine do not present material risks or opportunities to companies in a given industry receive 0% weight and do not impact the overall ESG rating.

SCORES AND CALCULATION OF AVERAGE, PERCENTILE AND RATING DISTRIBUTION

All averages, percentiles, and rating distributions found in the report are based on companies in the relevant MSCI ESG Ratings Industry that are constituents of the MSCI All Country World Index (ACWI) and are calculated based on industry scores as of the date of publication of this report.

ESTIMATED CARBON EMISSIONS

Carbon estimates are based on carbon intensity (carbon emissions/sales). The Estimate Key represents the source of the estimated carbon emissions data. E.CSI represents Company-Specific Intensity estimates based on previously disclosed data. E.GICSSI represents estimates based on the GICS Sub-Industry average. For E.GICSSI we set five levels of confidence (High, Moderately High, Moderate, Moderately Low, and Low). The Carbon Estimation Methodology document, available on ESG Manager, describes the estimation model in greater detail.

GOVERNMENT SUPPORT RATING

We calculate the 'government support rating' for Supranationals and Development Banks based on the weighted average of member countries' Governance scores using the MSCI ESG Government Ratings methodology. These scores are based on measures of political governance (strength of institutions, corruption control, civil liberties, and human rights) and financial accountability.

NOTICE AND DISCLAIMER

- MSCI ESG Research LLC is a Registered Investment Adviser under the Investment Advisers Act of 1940 and a subsidiary of MSCI Inc. Except with respect to any applicable products or services from MSCI ESG Research, neither MSCI nor any of its products or services recommends, endorses, approves or otherwise expresses any opinion regarding any issuer, securities, financial products or instruments or trading strategies and neither MSCI nor any of its products or services is intended to constitute investment advice or a recommendation to make (or refrain from making) any kind of investment decision and may not be relied on as such. Issuers mentioned or included in any MSCI ESG Research materials may include MSCI Inc., clients of MSCI or suppliers to MSCI, and may also purchase research or other products or services from MSCI ESG Research. MSCI ESG Research materials, including materials utilized in any MSCI ESG Indexes or other products, have not been submitted to, nor received approval from, the United States Securities and Exchange Commission or any other regulatory body.
- This document and all of the information contained in it, including without limitation all text, data, graphs, charts (collectively, the "Information") is the property of MSCI Inc. or its subsidiaries (collectively, "MSCI"), or MSCI's licensors, direct or indirect suppliers or any third party involved in making or compiling any Information (collectively, with MSCI, the "Information Providers") and is provided for informational purposes only. The Information may not be modified, reverse-engineered, reproduced or redistributed in whole or in part without prior written permission from MSCI.
- The Information may not be used to create derivative works or to verify or correct other data or information. For example (but without limitation), the Information may not be used to create indexes, databases, risk models, analytics, software, or in connection with the issuing, offering, sponsoring, managing or marketing of any securities, portfolios, financial products or other investment vehicles utilizing or based on, linked to, tracking or otherwise derived from the Information or any other MSCI data, information, products or services.
- The user of the Information assumes the entire risk of any use it may make or permit to be made of the Information. NONE OF THE INFORMATION PROVIDERS MAKES ANY EXPRESS OR IMPLIED WARRANTIES OR REPRESENTATIONS WITH RESPECT TO THE INFORMATION (OR THE RESULTS TO BE OBTAINED BY THE USE THEREOF), AND TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, EACH INFORMATION PROVIDER EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES (INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF ORIGINALITY, ACCURACY, TIMELINESS, NONINFRINGEMENT, COMPLETENESS, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE) WITH RESPECT TO ANY OF THE INFORMATION.
- Without limiting any of the foregoing and to the maximum extent permitted by applicable law, in no event shall any Information Provider have any liability regarding any of the Information for any direct, indirect, special, punitive, consequential (including lost profits) or any other damages even if notified of the possibility of such damages. The foregoing shall not exclude or limit any liability that may not by applicable law be excluded or limited, including without limitation (as applicable), any liability for death or personal injury to the extent that such injury results from the negligence or willful default of itself, its servants, agents or subcontractors.
- Information containing any historical information, data or analysis should not be taken as an indication or guarantee of any future performance, analysis, forecast or prediction. Past performance does not guarantee future results.
- The Information should not be relied on and is not a substitute for the skill, judgment and experience of the user, its management, employees, advisors and/or clients when making investment and other business decisions. All Information is impersonal and not tailored to the needs of any person, entity or group of persons.
- None of the Information constitutes an offer to sell (or a solicitation of an offer to buy), any security, financial product or other investment vehicle or any trading strategy.
- It is not possible to invest directly in an index. Exposure to an asset class or trading strategy or other category represented by an index is only available through third party investable instruments (if any) based on that index. MSCI does not issue, sponsor, endorse, market, offer, review or otherwise express any opinion regarding any fund, ETF, derivative or other security, investment, financial product or trading strategy that is based on, linked to or seeks to provide an investment return related to the performance of any MSCI index (collectively, "Index Linked Investments"). MSCI makes no assurance that any Index Linked Investments will accurately track index performance or provide positive investment returns. MSCI Inc. is not an investment adviser or fiduciary and MSCI makes no representation regarding the advisability of investing in any Index Linked Investments.
- Index returns do not represent the results of actual trading of investible assets/securities. MSCI maintains and calculates indices, but does not manage actual assets. Index returns do not reflect payment of any sales charges or fees an investor may pay to purchase the securities underlying the index or Index Linked Investments. The imposition of these fees and charges would cause the performance of an Index Linked Investment to be different than the MSCI index performance.
- The Information may contain back tested data. Backtested performance is not actual performance, but is hypothetical. There are frequently material differences between backtested performance results and actual results subsequently achieved by any investment strategy.
- Constituents of MSCI equity indexes are listed companies, which are included in or excluded from the indexes according to the application of the relevant index methodologies. Accordingly, constituents in MSCI equity indexes may include MSCI Inc., clients of MSCI or suppliers to MSCI. Inclusion of a security within an MSCI index is not a recommendation by MSCI to buy, sell, or hold such security, nor is it considered to be investment advice.
- Data and information produced by various affiliates of MSCI Inc., including MSCI ESG Research LLC and Barra LLC, may be used in calculating certain MSCI equity indexes. More information can be found in the relevant standard equity index methodologies on www.msci.com.
- MSCI receives compensation in connection with licensing its indices to third parties. MSCI Inc.'s revenue includes fees based on assets in investment products linked to MSCI equity indexes. Information can be found in MSCI's company filings on the Investor Relations section of www.msci.com.
- Any use of or access to products, services or information of MSCI requires a license from MSCI. MSCI, Barra, RiskMetrics, IPD, InvestorForce, and other MSCI brands and product names are the trademarks, service marks, or registered trademarks of MSCI or its subsidiaries in the United States and other jurisdictions. The Global Industry Classification Standard (GICS) was developed by and is the exclusive property of MSCI and Standard & Poor's. "Global Industry Classification Standards (GICS)" is a service mark of MSCI and Standard & Poor's.
- For information about how MSCI ESG Research LLC collects and uses personal data concerning officers and directors, please refer to our Privacy Notice at <https://www.msci.com/privacy-pledge>.

ABOUT MSCI ESG RESEARCH PRODUCTS AND SERVICES

MSCI ESG Research products and services are provided by MSCI ESG Research LLC, and are designed to provide in-depth research, ratings and analysis of environmental, social and governance-related business practices to companies worldwide. ESG ratings, data and analysis from MSCI ESG Research LLC are also used in the construction of the MSCI ESG Indexes. MSCI ESG Research LLC is a Registered Investment Adviser under the Investment Advisers Act of 1940 and a subsidiary of MSCI Inc.

ABOUT MSCI

For more than 40 years, MSCI's research-based indexes and analytics have helped the world's leading investors build and manage better portfolios. Clients rely on our offerings for deeper insights into the drivers of performance and risk in their portfolios, broad asset class coverage and innovative research.

Our line of products and services includes indexes, analytical models, data, real estate benchmarks and ESG research.

MSCI serves 97 of the top 100 largest money managers, according to the most recent P&I ranking. For more information, visit us at www.msci.com
